Shailesh Suryawanshi
Electronics and Telecommunication
Pune Institute of Computer Technology

CPI: 8.32
Graduation: 2027
Location: Pune, India

SCHOLASTIC ACHIEVEMENTS

- 1st Rank in Cyber Security Workshop Quiz, Pursuit 2023, SSGMCE, Shegaon.
- Solved 100+ Data Structures & Algorithms problems on LeetCode, consistently improving problem-solving and coding proficiency.

PROFESSIONAL EXPERIENCE

Sumago Infotech PVT LTD | Python Developer

June 2024 - July 2024

Learned web development using Python and PHP, and developed a healthcare chatbot during internship at Sumago Infotech Pvt. Ltd.

- Learned full-stack web development using Python and PHP
- Developed a healthcare chatbot that provides basic health-related responses.

Gharpan Foundation | Full Stack Intern

August 2025

Developed an Orphan Management System to streamline data handling and enhance operational efficiency, working on both frontend and backend development.

- Built and maintained a secure, scalable backend using Node.js and MongoDB, and deployed the full web application on Vercel for reliable performance.
- Integrated Firebase and Google Cloud for authentication and real-time operations, while designing a React + Tailwind CSS frontend for a responsive, user-friendly interface.

KEY PROJECTS

VitalNex – A Student Needs Application

July 2023 - April 2024

Developed an Android application to simplify daily essentials for students and travelers, offering services like room rentals, mess options, and medical assistance through a single, user-friendly platform.

- Built using Java, Firebase Realtime Database, and Firebase Authentication for secure, real-time operations.
- Designed an intuitive XML-based UI, improving user experience and engagement.
- Successfully implemented and tested all modules, ensuring optimized performance and scalability.

MediPlus – AI-Powered Telemedicine Platform

Jan 2024 – May 2024

Developed an AI-driven telemedicine web platform that predicts diseases, recommends doctors, and simplifies healthcare access through smart automation and real-time data management.

- Implemented Random Forest-based ML model for disease prediction and specialist recommendation.
- Integrated Flask, Firebase Firestore, and Selenium for secure real-time operations and doctor verification with a responsive HTML, CSS, and JavaScript interface.
- Enabled automatic severity scoring and nearest doctor search, enhancing user experience and emergency accessibility.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, C++, C, PHP
- **Web Technologies:** HTML, CSS, JavaScript, TypeScript, Bootstrap, Tailwind CSS, React.js, Node.js, Next.js
- **Databases:** Firebase, MongoDB, MySQL, PostgreSQL, SQLite
- **Tools:** VS Code, Android Studio, Docker, Git
- **Additional Skills:** DSA, OOP, DBMS, CN, OS

POSITIONS OF RESPONSIBILITY

Design Head | Robotics Club, Pune Institute of Computer Technology

September 2024 - September 2025

- Designed and executed impactful visual campaigns for robotics events, boosting participation and visibility.
- Collaborated with technical and media teams to produce cohesive designs for presentations, posters, and social media.

Social Media Design Head | Pune Institute of Computer Technology

September 2024 - Present

- Designed and executed social media campaigns that enhanced engagement and visibility across official platforms.
- Collaborated with content, photography, and video teams to maintain a consistent and professional visual brand identity.

EXTRA-CURRICULAR ACTIVITIES

- Passionate about trekking, designing, and photography — exploring creativity through visuals and nature while capturing unique perspectives and moments.
